

KSD/KSB label plate (Polypropylene)

Single wire, cable, and conduit labelling

PRODUCT INFORMATION

High-quality label to attach with cable ties directly onto the cables.

KSD/KSB label applications

The KSD/KSB label is a product designed for the subsequent marking of cables; it features a low-profile. The low-profile design requires that cable ties must not be tightened with a force higher than (50-60 N / 5-6 kg). Since

the force intensifies considerably at the tongues for these small cable diameters, you must observe the recommended areas of application.

The material Polypropylene (PP) is intended only for labels created with the MP laser system.

SPECIFICATIONS

- Polypropylene (PP)
- 30 – 90 °C
- HB
- Single-line and multi-line inscription

HF
